

Dear Families and Friends of our Residents,

Greetings and happy fall! We Little Sisters of the Poor have two-fold good news to share with you:

1. We continue to have no Coronavirus within the Home.
2. On Monday Oct. 12th we are beginning “compassionate care” indoor visiting for Residents who have been evaluated and documented as having a special need for these visits. The quarantine has been long, and so we are happy to see our Residents have this opportunity, which will mean so much to them! Guidelines for these visits have been sent to the families, and the visits must be scheduled by noon on Friday of each week for dates during the following week. We ask that the guidelines be read very carefully, and that any family member who will be making a visit share our commitment to follow all of the directives given us by the health authorities, so as to keep everyone as safe as possible from the virus. (Outdoor visiting possibilities remain unchanged, and those visits can be enjoyed in addition, weather permitting.)

We are so happy for you and for our Residents! Please enjoy this precious time that you will be able to share with your loved ones!

God bless you all,
Mother Mercy, lsp
