

November 7, 2020

Dear Family Members,

We have been enjoying this week of beautiful weather here at the Little Sisters, and we hope that you have as well!

We are pleased to report once again that we have no cases of Coronavirus among our Residents or staff. However, as you may be aware, the Coronavirus testing positivity rate has gone up dramatically in our state and also in our county. The virus has gotten into some nursing homes, including one in our area that has a large number of cases. Because of these facts, we will need to:

1. Pause the indoor “compassionate care visits” temporarily; and
2. Start testing our staff weekly instead of monthly.

Thus Monica will not be able to schedule any more indoor compassionate care visits for the present time, but we will let you know when those can resume. Outdoor visits may continue as usual, weather permitting.

Thank you for your understanding and support as we try to keep your loved one and all of our residents safe!

God bless you all –
Mother Mercy, L&P
