

January 3, 2021

Dear Families and Friends of our Mullen Home Residents,

Happy New Year! Ours has started off well here, as we have just received our third consecutive set of all-negative COVID test results from our Residents, staff, and Little Sisters. This correlates with the improving Denver metro Coronavirus test positivity rate, and makes us all the more grateful for the sacrifices that our residents and each of you are making to help keep our Mullen Home family safe and to hasten the end of the pandemic.

We are eagerly looking forward to our first Coronavirus vaccination date —bJanuary 5th. Some of our other Homes have already had theirs, and those have gone well.

So we thank God for all His blessings to us, as we wish you also a New Year blest with health and happiness!

In the Joy of Our Newborn Savior,
Sr. Carolyn, lsp
