Dear Families and Friends of our Mullen Home Residents,

Happy Easter Week!

It is with great joy that we Little Sisters provide you with the good news that we are able to share this week:

- Our COVID test results from this week were all negative, and indoor visiting remains in effect;
- Our Residents are loving their family visits and hugs;
- **BIG NEWS!** Our Residents are now able to go out as they wish—to go for a home visit with their families, shop, go out to lunch... They and the family should wear a mask (except while eating and drinking) and should social distance from crowds as much as possible, but those who are fully vaccinated (which is almost all of our Residents) can enjoy HUGS and FREEDOM! They are so happy about this!

Further details about the guidelines for indoor visits, outdoor visits, and outings are being e-mailed to all the families/POAs for reference.

So we Little Sisters thank you for all the sacrifices that you and your dear ones have made throughout this long pandemic year, and we thank all of our friends everywhere who have been praying for us. The pandemic isn't over with yet, but we thank God for these wonderful blessings!

In the joy of Our Risen Savior,
Mother Mercy, lsp
