

April 17, 2021

Dear Families and Friends of our Mullen Home Residents,

Greetings from all of us at the Home as we finish up a snowy week and enjoy seeing a few signs of spring peeking through!

This week has been quiet on the Coronavirus front. We have once again received all negative results from our weekly COVID testing, and our Residents are REALLY enjoying their visits from their loved ones; what a gift!

Also, you may have seen in the news that Colorado has discontinued the use of its "COVID Dial", which classified counties by Coronavirus rate and corresponding level of restrictions. More authority is being handed over to local jurisdictions now to make those decisions. However, nursing care communities are still under the purview of the State Health Department, and because of the vulnerability of seniors to the virus and its emerging mutants, the Health Department continues to set regulatory guidelines regarding care communities' level of precautions and restrictions. They've actually done a good job for us; Colorado is one of the states that has done the best, and we are grateful.

So: Let's continue to wear our masks, wash our hands, watch our distance, and PRAY for an end to the pandemic--as we also join in prayers of gratitude for the blessings we are now able to enjoy.

Happy Easter season!  
*Mother Mercy, lsp*
