

September 5, 2021

Dear Families and Friends of our Mullen Home Residents,

While we are generally doing quite well here at the Home, I am sorry to inform you that we have had one employee test positive for COVID, and so we need to do house-wide COVID testing, and must pause all indoor visitation at least until we get the results of our first round of testing. Based on those results, we will know how to proceed and will keep you informed. (Outdoor visits are still a possibility—but masks must be worn by the family and resident.) We also need to go back to social distancing in the residents' dining rooms for now.

The affected employee was not in direct contact with any residents and is already feeling better, thanks be to God, so hopefully all of our residents and other staff members will remain well and safe.

Let us keep up our prayers and all our precautions to help bring this pandemic to an end. May God bless you all; we Little Sisters wish you a happy holiday week!

With confidence in our protector St. Joseph,
Mother Paul, lsp
