

*January 17, 2022*

Dear Families and Friends of our Mullen Home Residents,

Since before the beginning of the New Year, the Home has identified a number of staff COVID-19 cases. As we continue with mandatory outbreak testing and with Denver Counties Community Transmission level being significantly high, we have since continued to identify a number of staff and resident COVID-19 cases. Resident cases are significantly much less than staff cases at this time. This is a testament to the infection control protocols the staff follow each and every day they come to the Home.

We continue to follow infection control recommendations by the CDC, State, and local department of health agencies. The frontline staff are so brave as they continue to work day in and day out to serve our residents here at the Home. Please keep them all in prayer as we continue to pray for their continued strength and courage as we try to battle the virus.

We are blessed to have Mother Paul arriving today in Denver to spend some time with myself, the Little Sisters, residents and staff. During these difficult and trying times, we look forward to Mother Paul's warm and loving spirit.

God bless you all.

United in prayer,

*Sr. Sarah, lsp*
